Server Side Web Development Assessment 1

Github: <https://github.com/vegetka/SSWD-A1>

Live version: <http://sswda1.tk>

or: <https://teamlinder.000webhostapp.com/sswda1/index.php>

Local: <localhost/sswda1/php/app.php>

or: (redirect) <localhost/sswda1/index.php>

There are two databases in sql folder:

1. sswda1.sql - creates new database, adds 'towns' table
2. towns.sql - adds 'towns' table to an existing database (for servers with restrictions)

Endpoints:

Display JSON: <http://localhost/sswda1/php/app.php?towns=json>

Download JSON: <http://localhost/sswda1/php/app.php?towns=download>

Additional:

Show all database records:

<http://localhost/sswda1/php/app.php?towns=all>

Show all database records sorted by name:

<http://localhost/sswda1/php/app.php?towns=name>

Show all database records sorted by establish date:

<http://localhost/sswda1/php/app.php?towns=est>
